Evaluation Criteria
Post-doctoral Application Pre-selection
Latvian Biomedical Research and Study Centre

<i>Surname</i>	<i>Name</i>		
Evaluation Criteria	The maximum number of points	The minimum number of points	The resulting number of points
1. Research topic application development quality and scientific excellence	5	3	
• Timeliness of the topic			
• Theoretical and practical reason of the topic			
• Planned research credibility			
• Innovation potential			
• Multidisciplinary and interdisciplinary aspects			
2. Research topic application effect	5	3	
• Expected socio-economic contribution			
• Development of the newly created branch of knowledge, economy or society			
• Expected transfer of acquired knowledge and skills to the post-doctoral scientist career development			
• Co-operation partner selection and its impact on the opportunities for future cooperation			
• Intended distribution of the newly acquired knowledge			
3. Planned implementation of the research	5	3	
• Research and curriculum quality, proportionality			
• Plan compliance with its objectives and tasks			
• Relevance and credibility of the tasks of			

work packages, the deliverables and milestones			
<ul style="list-style-type: none"> Necessary scientific equipment and infrastructure provision in the project applicant institution or co-operation partner, possibility of conducting research, there are no legal obstacles to its implementation, there is no conflict with the Research Ethics and Research Integrity requirements and practices in Latvia 			
4. Post-doctoral scientific capacity	5	3	
<ul style="list-style-type: none"> Post-doctoral scientist's current scientific capacity consistency with the objective of the research 			
<ul style="list-style-type: none"> Eventual contribution to the post-doctoral scientist's career development and capacity expansion 			
<ul style="list-style-type: none"> Previous experience and results or achievements (publications, monographs, patents, conferences, participation in projects). 			
<ul style="list-style-type: none"> Educational activities 			
<ul style="list-style-type: none"> Previous international experience 			
<ul style="list-style-type: none"> Work experience in a particular sector / field of science 			
5. Research topic contributes to the achievement of the objectives of the smart specialisation strategy of Latvia, implementation of the priorities of growth or development of the specialist areas	3	-	
a) Contributing to the achievement of the objectives of the smart specialisation strategy of Latvia, implementation of the priorities of growth or development of the specialist areas (3 points)			
b) Making a partial or indirect contribution to the smart specialisation strategy of Latvia, implementation of the priorities of growth or development of the specialist areas (1 point)			
c) Not contributing to the achievement of the objectives of the smart specialisation strategy of Latvia, implementation of the priorities of growth or development of the specialist areas (0 points)			
6. Research topic compliance with the BMC research programme, research areas and	5	-	

human resources planning			
a) Complying (5 points)			
b) Partially complying (3 points)			
c) Non-complying (0 points)
